How come I don't see the graduate level classes in the Class Search?

The Course Career field in the Class Search Criteria defaults to "Undergraduate". Change the value to "Graduate" and search.

The screenshot shows a web form titled "Class Search Criteria" with a purple header. It contains three rows of input fields: "Course Subject" with a dropdown menu, "Course Number" with a dropdown menu set to "is exactly" and an adjacent empty text box, and "Course Career" with a dropdown menu set to "Graduate". A red rectangular box highlights the "Course Career" dropdown menu.
